We greatly value you, our supporters, without whom we could not carry the mission of Heart to Heart International. This is an organization you can be proud to support and know your contributions are helping those in greatest need, in the United States and around the world.

This impact report provides a quick glance at current activities. More in-depth information is available at www.hearttoheart.org. Latest updates can be found on Facebook, Twitter and Instagram.

**Your donation makes a direct impact on the lives of men, women and children around the world every day.**

**Heart to Heart is ready to help. Please Give Now.**

Thank you for your support,

Staff and Volunteers

*Stamps for this mailing were donated by a corporate partner and assembled by volunteers.*
Heart to Heart Maximizes Your Donation

Through partner programs we gain extra value

$100 million per year donated medical & health aid

Worldwide shipping, donated by FedEx

6,195 individuals volunteered last year

TouchNet waives all credit card fees on donations

HHI operates on a administration budget of less than 2%

Bottom line 98% of your donation goes to those in need.
• Hurricane Matthew Recovery

HHI responded quickly to the disaster with emergency medical teams and supplies. FedEx chartered a plane to bring in 30 pallets of medicines, medical supplies and health & hygiene kits. Working with USAID we helped repair, restaff and reopen three cholera treatment centers around Marfranc.

• Syrian Refugees

A relief shipment was sent containing new tents, medicines, medical supplies and health & hygiene kits.
HHI shipped 2000 girls’ health & hygiene kits to Save The Children, our partner in Malawi. These kits help keep girls in school by providing essential tools to manage menstrual hygiene. Additional kits are planned to be delivered this fall.

**WHO Certification - Emergency Medical Team**

HHI is in the process of becoming verified by the WHO as a Type 1 Emergency Medical Team (EMT). This initiative will enable HHI to be better prepared for global disasters and fully integrated into the highly coordinated international disaster response network.
Domestic | 1st Half of 2017

• Neosho Flood Response

HHI's response to the flooding in May took us to a rural town in southern Missouri. Major damage to hundreds of homes kept us busy. We used mobile units to visit homeowners. Volunteer nurses helped give shots/minor care. Volunteer teams helped clean out houses and additional teams took supplies to response centers and churches.

• Tornado response for Oak Grove, MO

Volunteers and staff delivered supplies and supported the local community in March. The EF3 tornado damaged 483 homes.
• Three New U.S. Point of Care Laboratories

Point of Care laboratories were funded by BD and Implemented by Heart to Heart International (HHI) in conjunction with the National Association of Free and Charitable Clinics (NAFC). NAFC provided awards to safety net clinics with a desire to use in-house testing to diagnose and set treatment protocols to improve patient outcomes. I-STAT analyzers were donated by Abbott Point of Care.

• Camp Cumcito - Warsaw, MO

City Union Mission sends inner city kids from Kansas City to summer camp every year. HHI and Johnson & Johnson donated 600 Neutrogena Sport sunscreen bottles to ensure that every kid had sunscreen protection.
Upcoming Events

• Operation Healthy Delta

HHI is participating in an outreach program for rural health held in the boot heel of Missouri. Our volunteers will be working alongside US Military medical personnel in mid-September. Teams will be providing medical, dental and optical care at no cost to those in need.

• Disaster Response Workshop

HHI continues to train volunteer medical and logistics staff for deployment during disasters. Class work and simulations prepare teams for real-world situations.
• Haiti Health Clinics

Mobile medical teams will be set up to provide healthcare in Petionville street markets. Heart to Heart International-Haiti will be treating thousands of women who make a subsistence living selling items in the market. The need for basic healthcare for these women, who cannot afford treatment, cannot be overstated.

Heart to Heart International's Medical Director, Jackenson Davilmar, Country Director, Christophe Rodrigue and Lifesong for Orphans' Mike Rivas have begun planning a new clinic for Bercy, Haiti. Lifesong's orphanage will house 150 kids when completed and is already producing clean water and cash crops like mangoes, avocados and plantains. The health clinic will serve not only Lifesong's community but the entire population of Bercy. HHI is bringing better health to another community in partnership with Lifesong.
25th Anniversary Year Long Celebration

- Since 1992 -

• $1.5 Billion in Distributed Aid

• 1.1 Million Volunteer Hours

• 130 Countries Impacted

25th Anniversary Gala will be on April 14, 2018. Order tickets at www.hearttoheart.org

Special 25th Anniversary packet will be coming in October. We are asking for your support to help us expand the aid and programs that help those in need.
Every unrestricted dollar you contribute frees up to an additional $25 in grants, donated medicines and supplies.
